## Data Centre

The Data Centre was established in 2018 to develop and maintain the information technology infrastructure at the Royal Scientific Society (RSS) and the hosted entities within the RSS campus.

Our centre is certified according to ISO 9001-2015.

### We support:

- 11 data centre cabinets
- 35 physical servers
- 115+ virtual servers
- 150+ network equipment
- 700+ printers and scanners
- 1300+ personal computers and laptops
- 5000+ users

### We Provide:

- General IT support to the RSS campus
- Maintenance and development of IT infrastructure systems
- IT security
- Systems administration
- Data centre equipment follow up and development
- Development of specifications and evaluation of tenders.
- Specialised capacity building activities
- IT support for RSS conferences
